

Subject: Sportsmind Events - Building the Minds of Champions

Dear Colleague,

I have just a couple of places left for the fantastic **Sports Hypnosis training** scheduled for **November 3, 4 & 5 in Byron Bay**. If you are thinking about attending but unsure of the benefits, let me briefly explain the advantages of working with hypnosis in sport and why it is so significant.

Jeffrey Hodges

Hypnosis works with the unconscious mind, and most of our best performance as athletes happen when we 'just do it', unconsciously. When we try hard consciously, this is often when we don't perform as well, so learning how to work with the unconscious mind through altered state training in hypnosis is perfect for sports people.

In my opinion, having worked for over 30 years now with athletes from just about every sport and at all levels of competition, ***I believe this type of altered state training that you can gain from working with hypnosis is the best mental training an athlete can undertake.***

Come and join me for 3 days of unique sports performance training in wonderful Byron Bay!
